

Finishing Your Build with the Pro's

**I asked 7 woodworking Pro's
how they finish their builds
and
here's what they had to say!**

Chip Wade ([@chipwade](#)) loves a spray finish with lacquer.

Jen Woodhouse ([@jenwoodhouse](#)) has a super cool trick at the end of her coats to get that amazing shine!

Clint Harp, [@clintharpofficial](#), loves to keep wood in its raw

state.

Pete with [@furniturebypete](#) has a great tip when you're using oil based stain.

Adam with [@lazyguydiy](#) has an easy and beautiful way to give your pieces the perfect antique look.

Brandt with [@camillewoodworking](#) uses General Finishes and a spray gun to get his beautiful finishes.

Try a brush technique that Amanda with [@rusticduckfurniture](#) uses for her builds!
